

How To Save Energy¹ In Summer?²

Cocoa has made a **poster²** about energy saving. She wants to show people how they can save energy in summer. Read the poster and follow her **tips³**!

FIVE GREEN TIPS IN SUMMER

1

Grow plants to absorb⁴ heat – the water in them helps remove⁵ heat energy.

2

Pull down the blind⁶ during the day – it blocks out⁷ the sunlight and keeps your home in the shade⁸.

3

Make good use of solar energy⁹ – build a simple solar cell¹⁰ that can turn the sunlight into electricity¹¹.

4

Use an 'ice fan' - it makes the air in your home cool in a short time.

5

Air-dry¹² clothes and dishes – why waste electricity and money on clothes dryers¹³ and dishwashers¹⁴?

Vocabulary

1. save energy 節約能源
2. poster 海報
3. tip 小貼示
4. absorb 吸收
5. remove 帶走
6. blind 百頁簾
7. block out 遮擋
8. shade 蔭涼處
9. solar energy 太陽能
10. solar cell 太陽能電池
11. electricity 電力
12. air-dry 風乾
13. clothes dryer 乾衣機
14. dishwasher 洗碗機
15. create 創作
