

The Diary¹ of a Computer²

http://www.pc22diary.com/18_6_2016

18th June 2016 ☁️ Rainy

Today was a horrible day. Something happened when I was alone⁸ with my owner's cat. **First**, it walked around and looked at me curiously⁹. **After that**, it jumped up on my head. **Then**, it rested¹⁰ on me like I was its own sofa or bed. **Next**, it began to feel bored and played with my mouse and keyboard. **Finally**, it pulled my power cord¹¹ with its mouth and I fell to the ground from the desk. I was badly¹² hurt!

With the advanced³ technology⁴, computers and other electronic devices⁵ will become so smart that they can have feelings towards⁶ things happen to them. Let's read this diary entry⁷ which is written by a computer!

Rachel Ma

CLASSROOM Educator's Tips

We use **adverbs of sequence**¹³ to show **time relationships**¹⁴ between **actions**¹⁵.

First → **After that / Then / Next*** → **Finally**

* 'After that', 'Then' and 'Next' carry the same meaning so they are **interchangeable**¹⁶.
