

Speaking Practice

Charles is asking Mr Sad some questions. Read what they say.

Charles

1. Do you think Hong Kong is a polluted city?
2. What is the worst pollution?
3. Are there any solutions?

1. I think Hong Kong is a polluted city. People should think about how to improve the environment.
2. Air pollution is the worst. The cars produce a lot of fumes. The air is full of smoke
3. There are some solutions. People should take public transport when they go out. Also, they shouldn't keep the engine running when they aren't driving.

Mr Sad

What about you? Answer Charles' questions using the following phrases.

save energy

recycle cans

recycle paper

reuse plastic bags

bring your own bag

dump rubbish in rivers

keep the engine running

leave the tap on

take long baths

use new plastic bags

1. I think Hong Kong _____

2. _____ is the worst.

3. There are some solutions. People should _____

Also, they shouldn't _____

Suggested response:

I think Hong Kong is a polluted city. People should think about how to save resources.

Land pollution is the worst. People dump a lot of rubbish every day, especially plastic. Plastic is harmful to the environment because it does not decompose.

There are some solutions. People should recycle and reuse things. They can try to use fewer plastic straws by drinking directly or using stainless steel straws. Also, they shouldn't use new plastic bags when they go shopping. They can bring their own bags.
