Title	- Report on Teenagers' Mobile Phone Using Habits
Introduction	<ul style="list-style-type: none"> - a survey on teenagers' mobile phone using habits was conducted last month - find out how many hours they spend on their mobile phones and what they use them for - 150 senior form students of our school were interviewed
Results	<ul style="list-style-type: none"> - Over 60% of the respondents spend more than 50 hours per week on mobile phones. - Nearly 30% of them spend about 30 hours while 10% of them spend less than 20 hours. - more than 80% of the girls use their mobile phones to communicate with friends via messaging applications and social networking applications - about 70% of the boys use their mobile phones to play games - both girls and boys seldom use their mobile phones to look for information on the Internet and to do homework
Conclusions	<ul style="list-style-type: none"> - our senior form students spend a great amount of time on their mobile phones - mobile phone using habits of boys and girls are different - senior form students seldom use mobile phones for their studies
Recommendations	<ul style="list-style-type: none"> - the school should hold talks to teach them how to utilise their time with mobile phones - students should build up a healthy using habits to avoid getting addicted to mobile phones.
