A pig can swim?

You can do anything if you really want to. Just look at what these animals can do. Many years ago, there was a small pig. No one wanted it. But a family took it home, and the little pig grew up with a goose. Now, the pig is very big, and he thinks he is a goose too. Pigs cannot swim, but this pig can. He does not know this and keeps on swimming with his goose friend every day.

5

We can also look at the little dog that can skateboard with its owner. It does not know that most dogs cannot skateboard. You can see him having fun skateboarding with his owner. So you should not say you cannot do something just because you do not try it.
