Make a Silly Face to Win

How do you make your friends laugh? One way is to make a silly face! To make a silly face, you may put your tongue out or pull your face with your fingers.

Every year in September, there is a competition for making silly faces in England. People who join the competition will try their very best to make the ugliest face. The person who makes everyone clap the loudest will win the competition and some money. The competition is very popular. Many TV programmes report this event and the competition draws a lot of tourists from all over the world.

This special competition is a part of a fun fair. The fun fair started a long time ago in 1267 by the king. In the past, only people in England took part in the fun fair. Today, people around the world can join the fun fair. They can make silly faces to win!
