Friends from Outer Space

Friends from Outer Space is a very exciting book. The writer of this book is Joe Law. The book is about a group of aliens visiting Earth and they make friends with some children.

The aliens are from Mars. They see the Earth from a super computer and they want to visit the place. So, they ride on their spaceship and arrive in Australia. The aliens have big heads and long ears, so they scare people away. Three Smith brothers, Alex, Eric and Tony, are not afraid of the aliens. They help the aliens dress like humans and show them around Australia.

This book was very funny. The aliens did many silly things on Earth, but they were very nice to the people. The three children were kind and brave. Some people told the children that the aliens were rude and dangerous, but they helped the aliens and became friends with them. I liked the pictures in the book too. The famous artist, Connie Lo, drew them.

5B Lizzie Leung

Test your understanding.

- Who is the writer of the book?
 - A. Alex Smith
 - B. Joe Law
 - C. Connie Lo
 - D. Lizzie Leung
- The children thought the aliens were _____.
