### The Super Girls

*The Super Girls is a film about four girls who are good friends: Angie, Crystal, Polly and Winnie. Each of them has special power and they work for a secret agent. One day, they set out to catch a mad scientist who makes people do bad things. The job turns out to be very difficult, because the girls find that Polly's brother works for the mad scientist.*

*The film was very interesting. The fighting scenes were exciting. I held my breath when the girls fought against the scientist. I liked the special effects too. The ending was touching when Polly forgave her brother who started a big fire.*

*Crystal is my favourite character in the film. She can turn things into ice. Crystal is the one who puts out the fire in the end. Also, she is very funny. Her jokes in the film make me laugh. I dislike Polly's brother the most. He is wicked but silly. He causes all the troubles.*

*I like the film very much. I would recommend the film to my friends.*
