

# Know it Better 2

How well do you know your school? Learn more about this fun place!

We all borrow books from the school library. But do you know that the library also gives out books? The librarians give away old books every year because they need to clear some space for new books.

Some schools have lovely gardens so students can get close to the plants. Sometimes they can find insects or even bird nests on the trees. It is a very good way to learn about nature.

## A Write the correct letters in the boxes.

A. may not be healthy

B. has flowers, trees and insects

C. gives away old books every year

D. help in the library

1. The school library	2. School lunches	3. The school garden	4. The librarians

Many schools prepare lunches for their students, but not everything on the food tray is healthy. Sometimes there is only a little fruit and vegetables. That's why some schools are now designing healthier meals for their students.

**B Complete the word snake with the correct words from the text.**

- 1: To stay healthy, you should eat more fruit and \_\_\_\_\_.
- 2: Students can do a lot of things at \_\_\_\_\_. They can have lessons, read books and meet new friends there.
