

Getting bored? Check out these fun things to do and fun places to go!

Many people like old buildings because they look attractive and elegant. To take a closer look at them, you can visit some of the 'revitalised' buildings. Comix Home Base (CHB) in Wan Chai and Mei Ho House in Sham Shui Po were both housing buildings in the past. Now, CHB becomes an exhibition hall for local comic icons and Mei Ho House is both a museum and a hostel. You can learn about old Hong Kong easily in both places!

Learning can be a lot of fun! Join a course or a workshop to learn more about science. There are plenty of choices! If you like robots, you can try some robot-engineering classes. They help you design your own robot and learn how to control it. Some science courses allow you to do interesting experiments, such as flying balloon rockets and making volcano models.

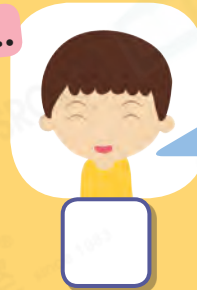

B What can the children do? Write the correct letters in the boxes.

1.

I like reading comics but my mum wants me to learn more about Hong Kong's history.

2.

I want to build my own robot and teach it to dance!

3.

I enjoy doing experiments. I want to know why hot air rises and cold air sinks.

4.

I live in Sham Shui Po. Are there any museums nearby?

A. Visit Comix Home Base

B. Join a science course

C. Join a robot-engineering workshop

D. Visit Mei Ho House
