Tour Monthly

Issue No.5 | March

In the last issue, we introduced some fun places in Kowloon. This month, we will bring you on an eco-tour to explore the natural beauty of Hong Kong. Don't miss out!

Mai Po Marshes

The area of Mai Po Marshes is the size of around 9,500 basketball courts. Many kinds of birds, butterflies and reptiles live there! You can see them from a short distance. To get there, you can take a bus or a minibus from Sheung Shui.

Hong Kong Global Geopark

Besides the seafood, Sai Kung is also famous for its spectacular views of strange rocks. The rocks in Hong Kong Global Geopark will allow you to know more about the history of the Hong Kong landscape!

Hong Kong Wetland Park

Although Hong Kong Wetland Park is smaller than Mai Po Marshes and has fewer animals, it is close to the city centre of Tin Shui Wai. The park is in a convenient location for family visits. It is also a great place for the public to relax and learn about the wetland!
