

# Know it Better

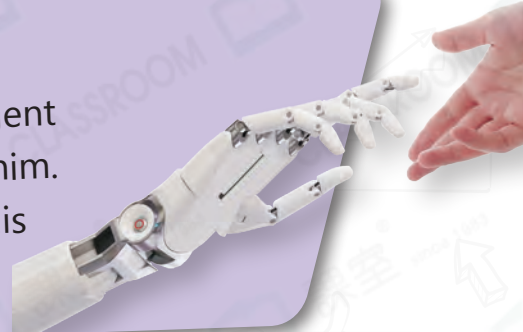

## 3

Hong Kong may be a small place but there are many great people. How many of them do you know?

### Chan Yik Hei, 'Son of the Star'

In 2004, Chan won an award for his invention of an intelligent security robot. After that, a small planet was named after him. People have begun to call him 'Son of the Star' to praise his accomplishment. He is now the owner of an IT company.

### Dr Rebecca Lee, an adventurer and environmentalist

Dr Lee is the first Hong Kong woman who has been to the four extreme regions on Earth such as the North and South Poles. After visiting the Antarctic, she realised that our world was seriously damaged by global warming. Therefore, she started to promote environmental education to the public.

**A** Complete the jigsaw puzzle by circling the correct endings to turn the words into nouns.

1. accomplish (v.)	-ment	-ion	-ity
2. educate (v.)	-ity	-ment	-ion
3. special (adj.)	-ment	-ion	-ist
4. infect (v.)	-ious	-ion	-ity
5. ill (adj.)	-ist	-ness	-ion

## Dr Yuen Kwok Yung, a hero against SARS

Dr Yuen is a well-known infectious disease specialist. In 2003, he led his team to look for the causes of SARS. He found that bats were the source, so he set up a database on the viruses which might lead to cross-infections between humans and animals. Doctors could then develop a medicine to fight against the fatal illness.

**B** Replace the underlined words with the correct words from the text.

e.g. Chan Yik Hei invented a security lock in 2004.

robot

1: People have called Chan Yik Hei 'Son of the Star' because a small plane was named after him.

2: Dr Yuen set up a company to study viruses in 2003.

3: SARS was a slight disease which took a lot of lives in 2003.

4: Dr Lee is the first Hong Kong woman who has been to many poor areas on Earth.

5: After visiting the Antarctic, Dr Lee started promoting health education to the public.
