

Miss Wong is reading a story to her class.

Where are you, Bob?

Venus goes to the park with her friends. They have fun there. Bob is with Venus too. But it sees something beautiful and runs away. 'Oh no! Where are you going, Bob?' Venus shouts.

Bob likes to see the fish. Venus goes to the pond, but she cannot find Bob. Bob likes to play with the children. Venus looks for Bob on the slide and under the swing, but it is not there. Venus feels unhappy.

'Woof, woof!' Venus hears Bob bark. She finds Bob near the flowers. It is running after a butterfly! 'Here you are! Don't run away next time!' Venus says and brings Bob home.

Choose the best answers by blackening the circles.
