

### Nancy wrote about a day in Mai Po Nature Reserve in her diary.

5<sup>th</sup> December, 20XX

Sunny

Our class went to Mai Po Nature Reserve today.

It was far away from school. Some of my classmates felt sick during the long coach ride. At the same time, others were noisy and **mischievous**. Miss Lo wanted to scold them and ask them to behave, but she was busy taking care of the sick students. I sighed when I saw these things.

After we arrived, we attended a talk about the tour in a big room. Then, we played some games with the tour guide and watched a short video about migratory birds. After that, we visited Gei Wai Museum. At last, we watched the birds with binoculars before we took a group photo and left.

What an amazing day!
