

Joey and Dave are talking about their future on the phone.

Dave : When I grow up, I want to be a scientist. If I become a scientist, I will work in a laboratory and conduct a lot of experiments.

Joey : You always come first in class. You are also observant and creative. I'm sure you can do it!

Dave : I'm going on a science study tour to Singapore this summer. I can't wait to learn from the scientists there!

Joey : Wow, that sounds cool! I don't have a goal for the future like you do. I just know I want to be in uniform.

Dave : Well, there are plenty of choices. You can be a policewoman, or a nurse, or a flight attendant...

Joey : If I become a policewoman, I will be the host of *Police Report*. If I become a nurse, I will wear a skirt but not trousers. If I become a flight attendant, I will take a selfie every time before I work...

Dave : Hmm... then I think you should be an actress because you can wear any uniforms you like!

Choose the best answers by blackening the circles.
