

Grammar in Real Life 4

Fred, the chairman of Green Club, is writing a leaflet to promote environmental protection at school. Complete the leaflet by circling the correct words in brackets.

GO GREEN @ SCHOOL

It is (1) (very / barely) important to protect the environment for a (2) (better / best) Earth in the future. It is not a difficult thing to do (3) (so / but) every one of us can play a part! Read the following tips which are useful for (4) (go / going) green at school:

- Switch off lights, fans (5) (and / or) air-conditioners that are not in use. The last person who leaves the room should check (6) (careful / carefully) if these devices are turned off.
- Don't set the air-conditioner at an (7) (extremely / hardly) low temperature. The government advises (8) (keeping / to keep) the room temperature at 25.5°C.
- Always bring your own **cutlery** for lunch. We suggest (9) (not using / not to use) wooden chopsticks or plastic forks (10) (because / so) they cannot be reused.
- Turn off the water tap after (11) (to wash / washing) your hands. Use the hand dryer to dry your hands. It takes you more time (12) (and / but) is more environmentally friendly.
- Put used paper, aluminium cans (13) (and / so) plastic containers in the recycling bins. (14) (Recycling / To recycle) is one of (15) (more **effective** / the most effective) habits to reduce waste at source.
- If you plan (16) (having / to have) a Christmas party, go for (17) (simpler than / the simplest) decorations.

LET'S ACT NOW FOR A GREENER SCHOOL!

Vocabulary:

cutlery (n.): knives, forks and spoons

effective (adj.): producing an intended result
