

Interpreting and analysing information

Master the reading strategy!

What is it about?

- some calculations, comparisons and comprehensive analyses

What to look for?

- relevant information, which may be distributed among more than one paragraph

How to deal with it?

- match the options' content with the relevant information found in different paragraphs to identify the answer

Let's have a closer look!

A New Robot at a Discounted Price!

Are you tired of doing housework? Here's some good news for you! The recently released housekeeping robot, *Chorobot*, can help you do all the housework!

Unlike any other automated housekeeping machine, *Chorobot* can do all kinds of typical daily housework. It not only sweeps the floor and mows the lawn, but also cooks meals, makes beds and hangs the laundry for you. 5

Do you think a housekeeping robot would be costly and difficult to use? *Chorobot* is much cheaper and user-friendly! It does not need to wait for orders. It can be programmed to perform all the domestic chores that are yet to be done. You can just have a cup of tea and relax while *Chorobot* washes the dishes for you. 10

What are you waiting for? Act now! You can even enjoy an \$800 discount if you make your purchase on or before 28th June!

Which of the following is NOT one of *Chorobot*'s advantages?

- A. light (its weight is never mentioned)
- B. reasonably priced (it is 'much cheaper' than other housekeeping robots and there is a discount for purchases made within the specified period)
- C. easy to use (it is user-friendly as it can be programmed to complete any unfinished housework)
- D. able to do a wide range of chores ('do all kinds of typical daily housework' means the same as 'do all kinds of chores')

Let's practise!

How many functions can *Chorobot* perform at least?

- A. four
- B. eight
- C. six
- D. five
