Challenge Station on Text Types

How is a film review usually structured? Write the correct letters in the boxes. Then choose the best answer for each question by blackening the circle.

A. Plot summary	B. Rating	C. Title
D. Brief introduction	E. Comments and recommendations	

1. ***Beauty and the Beast* (2017) Review**
Learn to Love before the Rose's Last Petal Falls

★★★☆☆ 2.

3. *Beauty and the Beast* (2017) is a remake of the 1991 animated musical fantasy film of the same title. Starring Emma Watson as Belle and Dan Stevens as the Beast, the film presents a classic romantic story that appeals to contemporary audiences of all ages.

The film is about a loving, intelligent girl named Belle, who takes her father's place of life sentence in the Beast's castle, as her aged father happens to have trespassed on the Beast's palace to pick a rose from his garden as a gift to her. Belle, at first, holds a grudge against the brutal Beast, while the Beast gets irritated at her. Their relationship changes gradually ever since the Beast saves Belle from a pack of wolves. His temper melts away and he treats Belle so tenderly, unveiling his kind heart. Belle, unknowingly, loses her heart to the Beast before the rose's final petal falls, thereby [?] the spell.

The film is faithful to the original animation, with light shed on the leading actress Emma Watson. She professionally portrays Belle—bookish and out of tune with others—as an intelligent and creative woman who is destined to be unorthodox and dares to be independent and proactive, unlike everyone else in the village. A classic fairy tale presented in live action is, no doubt, like 'a dream come true', which is miraculously wonderful and engaging. Thanks to Emma, whose acting does spice up the film. But if you are looking for something new in the story, [?].

4.

5.
