#### Becoming environmentally friendly

Write an article of about 150 words to share your way of leading an eco-friendly lifestyle.

Hints: You can elaborate from the perspective of sustaining Earth's resources. (e.g. Support recycling; Use products made from renewable materials)

With the rapid advancement of science and technology, we are facing an increasing number of environmental problems. As students, there are many things we can do to protect the environment.

**To start with**, we should conserve water resources, as water is the source of life. There are numerous ways we can contribute, **such as** saving and recycling water. In our daily lives, we should turn off the tap when brushing our teeth, and reuse the water from washing clothes, fruits and vegetables.

**Secondly**, it is crucial to conserve energy. Switch off appliances when they are not in use and opt for rechargeable batteries.

**In addition**, we should learn how to separate and sort household waste properly. **For instance**, newspapers, plastic bottles, glass and old clothes are recyclable. **On the other hand**, we should discard batteries, light bulbs, medicine and paint with caution as they can be harmful to the environment.

**Finally**, we can support tree planting campaigns. Trees are essential to environmental protection as they help purify the air and prevent soil erosion.

**To sum up**, everyone has the responsibility to protect the environment, and we should encourage more people to join in our efforts to preserve our planet.
